Pack for both hot and cooler weather in Peru, including a warm, waterproof jacket. Comfortable clothes, good walking shoes, and absorbent socks are essential. For the Amazon, bring long-sleeved, lightweight cotton clothes to protect against insects, waterproof boots or sneakers, and absorbent socks. A smart-casual outfit for dinner is optional.

Although the weather is mostly warm and sunny, it's wise to have a light jacket for cooler evenings or rain. Don't forget insect repellent, a sun hat, sunglasses, sunscreen, a camera with extra batteries and memory cards, and lightweight binoculars.

### **Luggage Allowances:**

International airlines are often strict about the size and weight of checked in baggage and carry-on luggage. Prior to your departure, please contact your airline or visit their website for specific luggage requirements, as size and weight limitations may vary according to the airline and destination.

## **WEATHER**

Peru is a huge country and due to this, it has 28 different types of climate. In general, the weather is mild, without heavy winter rainfall in the nor excessive summer heat. However, the country can be split into three climatic areas. Peru's subtropical coast has summertime temperatures exceeding 29°C, while winters there, from June-September, are humid and rainy with temperatures around 14°C. The climate is cold and dry in the Peruvian highlands, where temperature range between 9-18°C, according to the time of the day. The sun usually shines every morning of the year, but in the evening, temperatures drop to 5°C. Inland, Cusco experiences a mild temperate climate. Winters are dry and summers warm, with temperatures averaging around 18°C in the daytime. In the capital city, Lima, average temperature is 25°C in the summertime, and 12-15°C in winter.

In Peru, the standard voltage is 220V and the frequency is 60Hz. They use two types of plug – Type C (European plug adapter) as well as Type A (US/North American style). You may need to bring an adaptor, and/or converter depending on which electrical appliances you bring with you.

## **MOBILES & INTERNET COMMUNICATION**

Mobile coverage is widely available across Peru, be sure to check with your mobile provider for coverage and rates, as data roaming can be extremely expensive.

## **MONEY**

### **Currency:**

The currency of Peru is the Nuevo Sol (PEN). Though credit cards are often accepted at mid-high range establishments, but it is advisable to carry money in cash with you as well as not all shops and restaurants accept them.

ATMs are widely available in cities, but not so in smaller villages. Due to a high occurrence of card fraud and potential theft, is best to use an ATM during business hours and select one inside a bank, supermarket or large commercial building. Be particularly vigilant before and after using an ATM on the street, especially at night.

Visa and Mastercard are the most widely accepted credit cards, and some places, but not all, accept cards such as Diners Club or American Express. If you intend to use any of your debit or credit cards whilst away, please make sure that you contact your bank before you leave to inform them that you will be travelling in order not to cause any problems using your cards or whilst on the trip.

### **Gratuities:**

After feedback from previous guests, we offer a group tipping package for this tour, more information on this will be shared in the 'Pre-Tour Emails'.

The tap water in Peru is not safe to drink, and you should stick to bottled water. Bottled water can be bought at supermarkets, kiosks and many shops.

As visitors, tourists may be more vulnerable to petty crimes like pickpocketing and scams, so we recommend staying aware and taking simple precautions.

## **RELIGION**

Whilst Peru is mostly Catholic, Amerindian beliefs still largely held as well and traditions are incorporated into daily life as well as catholic feasts.
